GATHER STAR

Product Catalog

GATHERSTAR

UV coating for PVC floor material

Conventional curing series products

Adapt to scene	Type	Name	Performance characteristics
Sheet product series	Matte primer	PVC floor matte primer	Good adhesion (0 level), excellent flexibility, good construction performance
		PVC floor matte finish	Gloss 5-8°, Martindale micro-scratch ⩽2 grade, scratch resistance ⩾2500g
	Ceramic matte finish	PVC floor ceramic matte finish	Surface damage resistance, balance flexibility and surface hardness feel comfortable.
	Anti-bacterial matte finish	PVC floor anti-bacterialmatte finish	Gloss 5-8°, Martindale 4 test B2 grade
	Stain resistant matte finish	PVC floor stain resistant matte finish	Inhibit the growth of bacteria and fungi, Staphylococcus aureus, Escherichia coli and other bacteria antibacterial rate is greater than 99%, good flexibility, with excellent scratch resistance and scratch resistance
	Stain resistant and antibacterial matte finish	PVC floor anti-fouling and anti-bacterial matte finish	Anti-graffiti, oily handwriting can be easily wiped away
	80 degree high gloss finish	PVC floor 80 degree high gloss finish	Excellent antibacterial and stain resistance
	Yellow resistant matte paint	PVC floor anti-yellowing matte primer	Add less, quickly turn up the gloss
		PVC floor super wear resistant matte finish	Good adhesion (0 level), good construction performance, suitable for light color board
	Super wear-resistant matte paint	PVC floor super wear resistant matte primer	Resistant to yellowing, suitable for light color plates
		PVC floor super wear resistant matte finish	Gloss 5-8°, Martindale 38N test B2, with 5MC finish special
	LED multi-coating system	PVC floor anti-slip matte primer	Good flexibility, with excellent scratch resistance and scratch resistance (2.5-4.0kg, depending on different substrates) Gloss 5-8°, Martindale 38N test B2 grade, matching 5MC primer special
		PVC floor anti-slip finish	Special sand-grained surface, excellent anti-slip effect, stable gloss range, leaving no trace on the surface of the board
	LED multi-coating system	PVC floor with primer	Special sand-grained surface, excellent anti-slip effect, stable gloss range, leaving no trace on the surface of the board
	Special functional finish	PVC floor anti-hot matte finish paint	High temperature resistance, cigarette burn resistance
Coil product series	Coil matte finish	PVC roll floor matte finish	Good adhesion (grade 0), excellent flexibility, good scratch resistance
	Stain resistant top paint for coil	PVC roll floor stain resistant finish	Good flexibility, excellent scratch resistance, anti-graffiti, excellent stain resistance, mark handwriting can be wiped more than 40 times, resistance to 2% iodine 10min wipe no residue

SCRATCH RESISTANT MATTE COATING

PVC TILE COATING

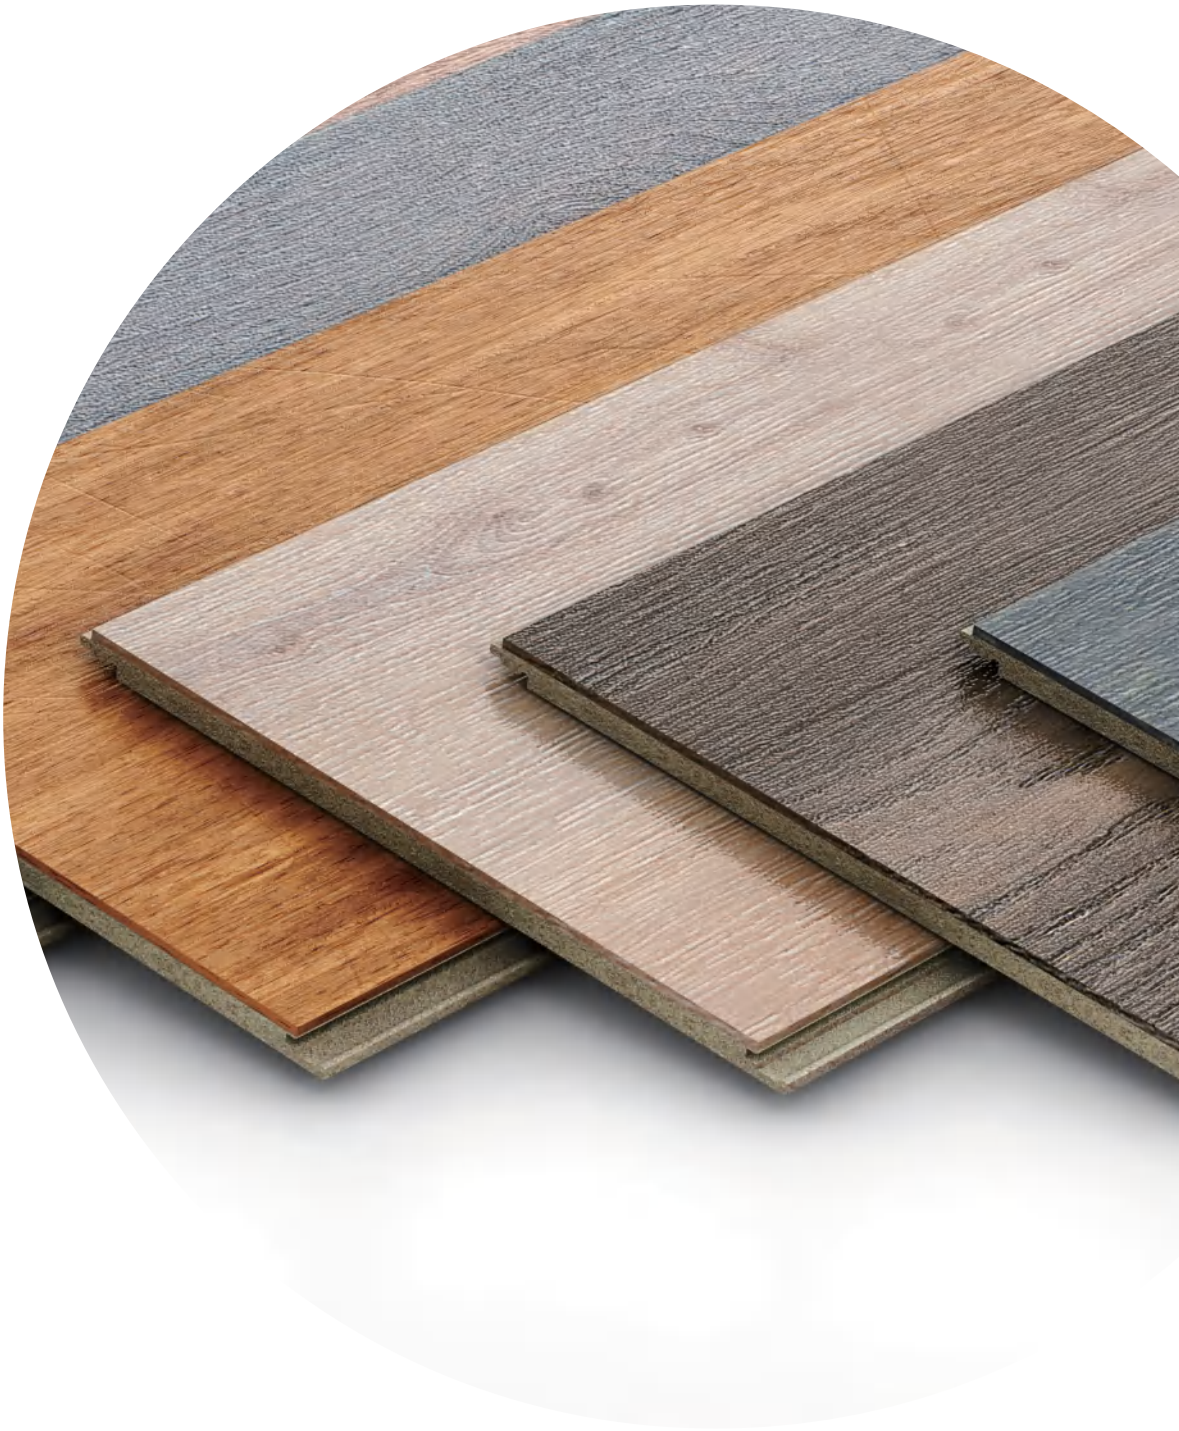

- Excellent adhesion (level 0), good flexibility,low shrinkage, low warpage,without causingdeformalion of the foor,excellent scratcn resistance (2.5-4kg, depending on the substrate)

- Note: This scratch resistance refers to the resistance of the coating to the scratch of the hemishemisical scratch, that is, the so-called scratch resistance (unit kg or N), thimble scratch resistance.

STAIN RESISTANT MATTE COATING

PVC TILE COATING

- Anti-graffiti, dirt resistant, easy to clean, oily handwriting easy to erase, effective wiping times up to 40 times.

ANTI SLIP MATTE COATING

PVC TILE COATING

- Resistant to bacteria and fungi, the antibacterial rate of staphylococcus aureus and escherichia coli is greater than 99 % , can adding properties of scratch resistance, wear resistance, micro-scratch resistance and so on.

DIAMOND MATTE COATING

PVC TILE COATING

- Scratch resistance, excellent wear/abrasion resistance , excellent resistance to surface damage,micro-scratch resistance s level 2,significantly higher than conventional products(zlevel 4).

MATTE FINISH FOR COIL FLOORING

PVC TILE COATING

- Scratch resistance, excellent wear/abrasion resistance , excellent resistance to surface damage,micro-scratch resistance s level 2,significantly higher than conventional products(zlevel 4).

STAIN-RESISTANT MATTE FINISH FOR COIL FLOORING

PVC TILE COATING

- Scratch resistance, excellent wear/abrasion resistance , excellent resistance to surface damage,micro-scratch resistance s level 2,significantly higher than conventional products(zlevel 4).

PRODUCT INTRODUCTION

Solid woc flootat surtire,Background wall 3D printirg,Uy Cosungs for Edge Bars

CATEGORY	NAME	PECULIARITY	ADAPTIVE RANGE
UV putty	Heavy duty putty	High filling, high viscosity, good sealing	Buy substrates with deep marks
	Pure taste putty	Environmental protection parts can be good fluidity high filling good, easy to set	Floor, door, office furniture High orange large panel furniture
	Elastic putty	Good elasticity, suspension, high strength	Floor, veneer, high fence board, furniture, wooden door
	Add hard putty	High hardness, anti-sinking	Mulch, MDF, panel furniture
UV paint	White paint	Color standard good color fastness good hiding power	A variety of substrates that require coloring
	Red paint		
	Yellow paint		
	Blue paint		
	Black paint		
UV roller primer	Common primer	Good filling and easy grinding	Common requirements for various substrates
	Adhesive primer	Good adhesion, easy to grind	Floor, plastic board, metal, ceramic surface
	Clear primer	Good transparency, high color reduction	High-end furniture, flooring, bathroom board, large board
	Medium fill primer	Good filling, easy to lift, good fluidity	Floor, furniture large board
	High fill primer	Good filling, high fullness, good adhesion	Floor, furniture, large board, polymer board
	Sanding primer	Smooth and easy to grind	Solid wood panels, furniture, flooring
	Coat front roller primer	Good wetting, good leveling	Solid wood panels, furniture, flooring
	Pure flavor primer	Very low odor, good filling, easy to grind	High-end furniture, bathroom, board cabinets, decorative board
	High leveling primer	Good leveling, high fullness, easy to polish	Flooring, furniture, large board, polymer board

CATEGORY	NAME	PECULIARITY	ADAPTIVE RANGE
UV roller topcoat	High gloss finish paint	Low odor, good leveling, brightness above 80 degrees	PVC floor tile, PVC coil, PVC gusset, floor, Furniture board, bathroom board, sheet metal, printing paper, Ceramic plate
	Mirror finish	High solid content, low odor, good leveling, surface like a mirror	Floor, furniture board, bathroom board, metal sheet, Ceramic plate
	Semi-matte finish	Low odor, good leveling, brightness about 50 degrees	Floor, furniture board, bathroom board, metal sheet, Ceramic plate
	A matte finish	The smell is low and smooth, the feel is greasy and the luster is even The brightness is 10-30 degrees	PVC floor tile, PVC coil, PVC gusset, floor, Furniture board, bathroom floor, edge sealing strip, polymer board, Calcium silicon plate, etc
	Super matte finish	The smell is low and smooth, the feel is greasy and the luster is even The brightness is below 10 degrees	PVC floor tile, PVC coil, PVC gusset, floor, Furniture board, bathroom floor, edge sealing strip, polymer board, Calcium silicon plate, etc
	Clear flavor finish	Full solid contains no odor, good leveling, uniform luster	Various quality substrates
	Stain resistant topcoat	High adhesion, low odor, fast curing, high stain resistance	PVC floor, PVC coil, high-grade flooring, furniture board
	Wear-resistant finish	High wear resistance, high hardness, smooth and fine, scratch resistance	PVC floor, PVC coil, high-end floor, furniture board, High molecular silicon calcium plate, ceramic plate, etc
	Shield coat paint	Ultra-high wear resistance, high hardness, smooth and fine, scratch resistance	Special high-grade PVC floor tile, PVC coil, floor, Furniture board
UV spray coat	High gloss finish paint	Low odor, good leveling, good fullness, brightness above 80 degrees	Floor, furniture board, large board, etc
	Mirror finish	Smell, low level good, fullness good, surface like a mirror	Floor, furniture board, bathroom board, large board
	A matte finish	Low odor, fine feel, uniform luster	Floor, furniture board, bathroom board, large board
	Clear flavor finish	Odorless, smooth, uniform luster	High quality flooring, large board, furniture
	Stain resistant topcoat	Low odor, fast curing, high stain resistance	Flooring, furniture board, decorative board
UV spray primer	Wear-resistant finish	High wear resistance, high hardness, smooth and fine, scratch resistance	Floor, furniture board, large board
	Clear primer	Good leveling, high transparency, easy to grind	
	White primer	Good leveling, high transparency, easy to grind	
	Pure flavor primer	Full solid content, very low odor, good leveling	Opposite wood, ceramics, handicrafts A variety of other heterotropic surface substrates
UV spray finish	High gloss paint	Good leveling, high gloss, high hardness	
	A matte finish	Good leveling, uniform luster, fine feel	
	Anti-friction topcoat	High wear resistance, high hardness	

Laminate flooring, melamine board coating

Adhesive primer, ordinary primer, pre-coating primer, topcoat

uv Coatings for 3D Printing of Background Wall

Suitable for a wide range of substrates, including marble, ceramic, PVC sheet, wood plastic fiberboard and other materials, paint gloss, yellow resistance, can effectively enhance the fullness and clarity of the background pattern. The success of the research and development of this series of products has greatly enriched the product categories of decorative materials, and promoted the development of the whole house customization and assembly model in the home improvement industry.

UV Coatings for Edge Bar Series

This seriss of products are widely used in decoration and protection of PVC plastic edge-seing strips. The edge-sealing strip paint has the advantages of low gloss, good fineness,good scratch resistance, fast curing speed, etc. The paint has good fluidity and does not thicken. Easy to construct.
